

## MULTIPLEX DISTRIBUTOR (PNEUMATIC)

### EXTERNAL DISTRIBUTION UNIT

#### PRODUCT DATA SHEET

### Description

- Modular accessory to combine with **Multiplex 1 Pro** or **Multiplex 2 Pro**.
- Allows dosing to multiple washers with a single dispensing unit, providing maximum versatility and flexibility.

**Pneumatic valves:** ensure precise and stable control.

**Simple Integration:** Easily connects to Multiplex dispensing units.

**Total Compatibility:** Modular design to work with all elements of the Multiplex System.

**Robust Construction:** Increased durability and strength. Reduced maintenance costs.

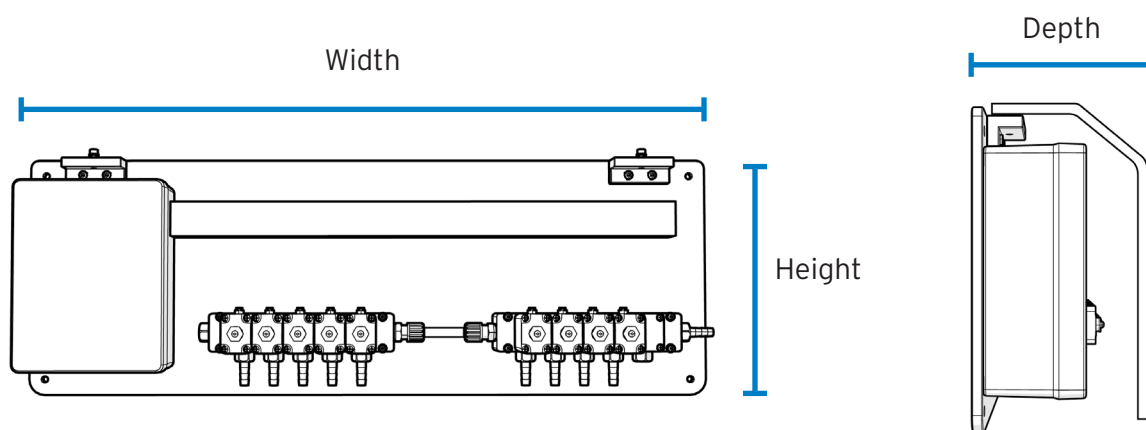

### Technical Specifications

	Value
<b>BODY</b>	Common for all valves Material: PVDF Thread: 3/8" (Female)
<b>VALVES</b>	Material: PVDF Connector: 3/8" - Tube 10mm
<b>CONFIGURATIONS</b>	5+1    10+1 7+1    12+1 9+1
<b>VALVE TYPE</b>	Pneumatic solenoid valves
<b>PNEUMATIC ACTUATORS</b>	Working pressure: 4 bar Sealing disc: PTFE Block-independent modular replacement Body material: Super PFA
<b>VOLTAGE</b>	24 VDC
<b>RECOMMENDED INSTALLATION MATERIALS</b>	Air supply tube: Polyurethane 8mm Multi-core cable section 0.5mm

## Details

Part Code	Description	Width	Height	Depth
